

Team 24 – Sprint 1 Testing Document

Sakshi Choudhary, Giorgi Khmaladze, Nick Litman, Mihir Somani, Conley Utz

User Story #4

Test 1: Given that the user is logged in and has navigated to the account settings page, the user should be able to delete their account.

Purpose: To meet the acceptance criteria a user has to be able to delete their account which is removed from the database as a consequence.

Steps:

1. The user clicks “DELETE ACCOUNT”

3. The user currently is in the database.

The screenshot shows the phpMyAdmin interface. On the left is a sidebar with a tree view of databases and tables. The main panel displays the 'users' table from the 'my_uni_market' database. A yellow status bar at the top indicates 'Showing rows 0 - 2 (3 total, Query took 0.0007 seconds.)'. Below this, the SQL query 'SELECT * FROM `users`' is shown. A table of data is displayed with columns: 'userid', 'email', 'username', and 'password'. The third row is highlighted in red.

userid	email	username	password
1	user1@purdue.edu	test123	\$2y\$10\$FQMECB3k0thJJMbtvPKwCu
2	user2@purdue.edu	user2	\$2y\$10\$zwXYhSqEZQqbyfO/3dqFR.k
6	test@purdue.edu	testuser	\$2v\$10\$WRbzGONCf0zLMTXR177Pf

4. The user clicks “CONFIRM” and is logged out automatically.

5. The user is deleted from the database.

Expected Result: After deleting the account the user must be signed out automatically and their account details must be removed from the database.

Test Result: **PASSED**
